## STORLOGIXCLOUD

### CLOUD-BASED ACCESS CONTROL SOFTWARE

With StorLogix Cloud, operators can maintain complete visibility and control over their entire portfolio from anywhere in the world. A cloud-based access control software eliminates the need to be on-site in order to view activity history, provide and restrict access to tenants, or pull detailed reports so you can ensure a world-class operation no matter where life takes you.

## STORID

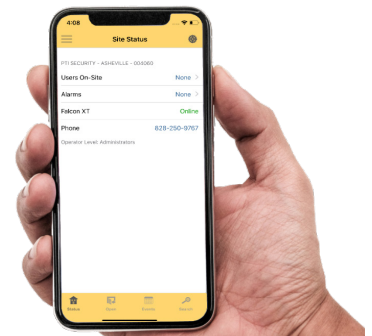

### TENANT-FACING MOBILE APP

Providing tenants with the convenience of a mobile app to access their facilities has become a standard for leading self-storage operators. StorID represents a shift in the industry towards modern solutions aimed at enhancing the tenant experience. By adopting StorID, operators empower their tenants to open gates, doors, and units as well as view their access history - all from their mobile devices.

## STORLOGIXMOBILE

### OPERATOR-FACING MOBILE APP

StorLogix Mobile puts the power of PTI's flagship access control system in the palm of your hand. With this mobile app, you can view site activity, and open gates, doors, and elevators with their mobile phone. StorLogix Mobile is an invaluable tool that makes it easier and more efficient for self-storage operators to stay connected on-the-go.
