

PTI SECURITY SYSTEMS

UNIT SECURITY SOLUTIONS

UNIT SECURITY

Operators must prioritize customization to meet the varied preferences of renters when it comes to door security. From traditional locks to cutting-edge smart locks, a tailored approach ensures that tenants can choose security measures that align with their comfort levels. PTI Security Systems continues to set the standard within self-storage with its full line of door security options allowing operators to find the correct balance of security for any properties specific requirements.

PTI sets the benchmark for self-storage security by offering two distinct levels of latches tailored to meet the unique needs of operators: DoorBoos and ProEdge—the company’s most intelligent and advanced lock to date.

PROEDGE

Simple, Smart, Elegant

The ProEdge Smart Lock, by PTI Security Systems, simplifies door security for both operators and tenants with its next-generation Bluetooth technology that provides keyless access, automated rental possibilities, and overlocking functionality. This one lock is all that is needed to accommodate left and right hand doors and is designed for both flat and corrugated doors. Tenants just need to swipe in the app to open the lock.

Materials

- Material: case-hardened steel
- Plastic breakaway tab

Battery

- Up to 3-year battery life
- Battery type: lithium ion

Connectivity

- Bluetooth BLE 4.2
- StorID app for tenant access

Monitoring

- LED light indicates lock status
- Access data shared with StorLogix Cloud
- Accelerometer communicates tampering

DOORBOSS

The Industry's First Wireless Electronic Smart Lock

Offering a truly wireless option, DoorBoss accommodates even existing facilities with its retrofitable design and straightforward installation process. PTI’s commitment to innovation is evident as DoorBoss delivers a hassle-free and efficient security solution, ensuring both new and established self-storage facilities can effortlessly adopt state-of-the-art protection.

Materials

- Material: steel/aluminum

Battery

- Up to 2-year battery life
- Battery type: AAA battery

Connectivity

- Wireless

Monitoring

- StorLogix Cloud Connectivity

HELOX

A Smart and Portable Solution

The HELOX padlock offers self-storage operators and tenants an easy-to-use, almost impenetrable layer of protection for stored items and to maintain facility integrity. Designed to integrate with tenant-facing mobile application EasyCode and operator-facing mobile application StorLogix Mobile, the HELOX padlock by PTI Security System™, secured by ABLOY, enhances keyless protection with no disruption to current access control systems while protecting vacant lots from improper usage.

ALARMS AND MONITORS

Elevate your self-storage security with PTI Security Systems, offering advanced wired and wireless door alarms, complemented by cutting-edge in-unit monitoring solutions. In collaboration with StorageDefender, our partnerships ensure comprehensive motion monitoring within storage units all connected in the cloud with PTI's awarded winning access control solution - StorLogix Cloud.. Whether you prefer the flexibility of wireless or the reliability of wired systems, PTI Security System has the alarm or monitor that has become the industry standard for both new or existing construction.

DOOR ALARMS

Versatile & Dependable

PTI Security Systems delivers a cost-effective door security solution for both new constructions and existing facilities. With options for wired and wireless door alarms, operators can enhance security measures without exceeding budgetary constraints.

HARD-WIRED The simplicity of installation makes wired door alarms easy to integrate into new construction and is a preferred choice for large-scale self-storage sites.

WIRELESS These alarm systems have a quick and easy installation, making them perfect for facilities that also plan to expand in the future.

STORAGEDEFENDER

In Unit Smart Monitoring

StorageDefender seamlessly integrates with StorLogix Cloud, offering operators and tenants instant notifications through in-unit monitoring and motion detection. This collaboration ensures swift responses for operators and provides tenants with immediate updates on the status of their stored items, reinforcing a commitment to comprehensive and user-friendly self-storage security.

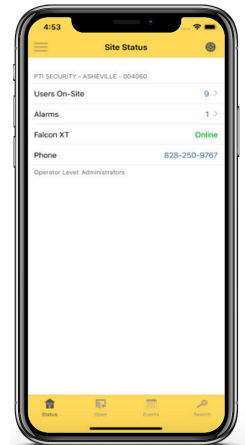

STORLOGIXCLOUD

Cloud-Based Access Control

The StorLogix Cloud platform combines 40-years of industry experience with the latest technology to create a comprehensive suite of access control products that helps self-storage businesses streamline their operations, minimize risk, and improve their bottom line. Ensure that your site is always secure while providing a world-class customer experience with cloud-based access control software and mobile apps by PTI Security Systems™.

StorLogix Cloud, an integral component of PTI Security Systems, serves as the foundation in orchestrating the comprehensive security and access control infrastructure of self-storage facilities. Offering operators scalable remote access control, this advanced platform enables the management of both property-wide and individual unit and door security.

PTI SECURITY SYSTEMS

Since 1979, PTI Security Systems™ has provided the self-storage industry with proven security and access control systems. Known for our complete and innovative solutions that deliver advanced and cost-effective security systems, self-storage owners and operators can efficiently manage their facility from anywhere, lower operating costs, and enhance the tenant experience.
