

StorLogix Mobile 2.0 for iOS

How to get started with StorLogix Mobile 2.0 for iOS

StorLogix Mobile 2.0 – Setup Process:

1. You must have StorLogix version 5.1.46 or newer.
2. To get started you will need 4 pieces of information:
 - a. **Site Key**
 - i. If you have StorLogix Legacy Desktop and EasyCode you will have a Site Key which can be found under **EasyCode > Register EasyCode Site Key**

- ii. If you have StorLogix Cloud you will also have a Site Key which can be found under **Operations > Company Info**. Scroll to the bottom of the page.

Device Settings

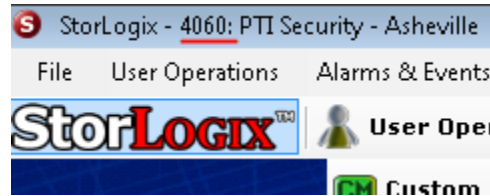

EasyCode Key
XHDoK3rLmA

Site Code *
30064

- iii. If you do not have EasyCode or StorLogix Cloud you will not have a Site Key to retrieve. In this case call **800-523-9504** to have one generated by our Tech Support team.

b. Site Code

- i. If you have StorLogix Legacy Desktop you can find your **Site Code** in the upper left-hand corner of the screen. See below

- ii. If you have StorLogix Cloud you can find your **Site Code** in under **Operations > Company Info**. Scroll to the bottom of the page.

Device Settings

EasyCode Key
XHDoK3rLmA

Site Code *
30064

c. Operator ID

- i. This is the standard user name you use to login to StorLogix.

d. Operator Password

- i. This is the stand password you use to login to StorLogix

StorLogix Mobile 2.0 – Setup Process for iOS
